

AI Solutions Closer

Company: AiBhive

Location: Remote (United States)

Job type: Part-time · Commission-only

Schedule: ~20 hours per week, phone-first

Posted: September 12, 2026

JOB SUMMARY

Sell custom AI software solutions to any company that needs help. You pick the accounts. We build the agents, apps, and automations that solve their problems.

RESPONSIBILITIES

- Call businesses and close custom AI services — lead gen, ops, phone systems, documents, or whatever they actually need.
- You are not locked to one vertical. Any company with a messy workflow is a prospect.
- We deliver the build. You open the door and close the deal.

COMPENSATION

- 25% commission, flat, on every closed deal.
- At 20 hours per week, expected earnings are \$10,000 per month.
- 100% remote — work from anywhere in the United States.
- Commission-only. No base salary. Results vary with closes.

Commission math: Typical projects: \$15,000–\$50,000. At 25% commission, one \$40,000 close = \$10,000. Most closers target 1–2 projects per month.
