JOB SUMMARY

Call property managers and put ManyDoors AI on their portfolio. A few hundred dollars a month replaces chaos that costs them hundreds of thousands a year — sometimes millions.

RESPONSIBILITIES

- Call property managers. Show the math: a few hundred bucks a month versus staff overtime, vacancy drag, and missed leasing.
- This is an easy sell when they see the savings. Software and apps for the office and the people in the field.
- You close. We onboard the portfolio.

COMPENSATION

- 25% commission, flat, on every closed deal.
- At 20 hours per week, expected earnings are \$10,000 per month.
- 100% remote — work from anywhere in the United States.
- Commission-only. No base salary. Results vary with closes.

Commission math: Typical portfolio fee: ~\$400/month (\$4,800/year). At 25% on first-year value, each close $\approx$ \$1,200. Target ~8 portfolios/month for \$10,000.
